GitHub: <https://github.com/SriHarsha3125>

Education:

Texas A&M University-Commerce, Commerce, TX

Masters in Computer Science, May 2024

JNTUH University, Hyderabad, India

Bachelor of Engineering in Electrical & Electronics, Sep 2020

Technical Skills

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript

Frameworks: Express.js

Data Bases: MySQL, SQL

Work Experience

Tata Consultancy Services, Bangalore

Mar, 2021 to Jul, 2022

- Worked as a Software developer for the EY product.
- Developing the applications using **Java, J2EE, Spring, JDBC, JUnit, Mockito, SQL, Angular JS, Mybatis, Vagrant, Nginx.**

Projects:

- **Portfolio:** Implemented a web crawler which crawls the entire student list for a respective faculty into an excel sheet based on term and course number. I've used **Java, J2EE, HTMLUnit, Jaunt, JSP, JSTL, Servlets, and Apache POI** to implement this.
- **Patient Flow simulation model using DevsJava:** This project is done as a part of Advance Software Engineering Course work. **Devs Java** is a simulation modeling language developed by Arizona State University which is used for development in simulating the real world problems.
- **E-Commerce Website:** Developed the E-commerce Website using **PHP, JavaScript, and MySQL**, where consumers can select, remove, add to cart, checkout the items selected, and also the bill would be sent to their respective email IDs.
